2. Introduction to the Review and Setting the Scoping Framework and Timescale

Councillor Cheshire welcomed the Panel to the first meeting of the Review of Outside Bodies and Organisations Scrutiny Review and provided some background information.

The purpose of the Panel was to evaluate the current system and to consider how and if, it adds value to the council. There was an acknowledgement regarding various limitations of knowledge surrounding outside organisations, responsibilities and legal implications. Several other authorities had conducted reviews of outside organisations and had streamlined their appointments. It was highlighted that the views of Link Officers, Councillors together with the Outside Organisations themselves would be of paramount importance, resulting in appointments that were beneficial and adding value.

Panel Members discussed the draft scoping framework. It was recognised that the review would not cover the Executive Membership to Outside Bodies as most of these appointments were due to the Executive functions. Additionally the review would not include individual outside organisations' own specific protocols and procedures.

Members acknowledged that 'adding value to the council' needed to be attributed to resource as well as monetary value. Councillor time needed to be used to its best advantage as did financial resources. Further investigation would be carried out on the benefits on attending as a councillor or a resident.

Panel Members discussed the possible approach to be adopted. It would be important to identify a clear picture of the current process in order to highlight any improvements. It was felt that conducting three surveys (Outside Organisations, Councillors and Link Officers) would assist in establishing some fundamental information regarding the current process and whether there was value to the council. As a result of some preparatory work that had been undertaken, draft surveys were circulated to Panel Members and these were reviewed. It was agreed that these surveys would be issued accordingly and witness sessions could also be arranged with two Link Officers.

There was discussion regarding the Panel's reporting arrangements as there was a suggestion to potentially consider recommending maintaining the current outside bodies' nominations for 2017-2018 until July 2018 (along with any vacancies), whereby which the Panel would have hoped to have finished its work. However, Panel Members felt this was not an ideal timescale as additional information was required in advance to support this process. Instead the Panel would aim to report to the Overview and Scrutiny Commission in June 2018, followed by Governance Committee and then Full Council.
