2 **Responses to Questions Asked at the Overview and Scrutiny Commission Meeting on 13 June 2022**

At the last Overview and Scrutiny Commission meeting held on [13 June 2022](#) queries were asked regarding the "[Staff Sickness Levels with Covid 19 and the Effects of Working from Home](#)" report. The following responses have been provided:

Establish whether CBC took part in the Local Government Association survey in January 2022:

CBC feeds into South East Employers (SEE) who submit on behalf of local authorities so it is likely the Council did participate in this survey.

Counselling statistics:

Year	Number of individuals referred or self-referred for counselling sessions	Number of individuals who attended counselling sessions	Number of individuals who are office based	Number of individuals who are non-officed based	Number of individuals who are repeat referrals from previous calendar year
2019	41	25	21	4	0

2020	34	23	17	6	2
2021	32	30	27	3	1
2022	16 to date	14	12	2	0

NB: It will be noted from the table above that the number of individuals taking up counselling was less than those who were referred/self-referred for each year.

Question for next staff survey:

HR will be contacting the Communications Team to request that an additional question is added to the staff survey in the autumn around what the Council could do to improve the wellbeing of staff that the Council is not currently providing.
