

## **S106 Committed**

£26,455.33 of collected S106 Library Monies has been committed by West Sussex County Council to the installation of modular shelving at Crawley Library, as well as providing high level work areas with individual access to power and USB sockets, tables, chairs, and a comfy seating area in the Business & Intellectual Property Centre.

The space will allow access to business 1;1s, events and online business resources for anyone seeking to start or expand a small business. This is part of a successful national library project being rolled out in libraries across the country.

In addition, £90,928.66 of collected S106 Transport Monies has been committed by West Sussex County Council retrospectively to the conversion of the mini roundabout at Ifield Drive/ Ifield Avenue, to a signalised junction. The total cost of the scheme was £442,000 and work was completed in November 2021.

This follows the transfer of the above S106 funds from Crawley BC to West Sussex County Council, following the conclusion of the S106 allocation process for both items. As per the standard practice, Crawley BC Local Planning Authority collected the S106 monies on behalf of West Sussex CC.
