

## **FINANCIAL PROCEDURE RULES - INTRODUCTION**

- (a) Financial procedure rules provide the framework for managing the Authority's financial affairs. They apply to every Member and employee of the Council and anyone acting on behalf of the Council. The regulations identify the financial responsibilities of employees and Members and where these responsibilities are delegated, a written record should be maintained of the delegation to whom and any limits that apply.
- (b) All Members and staff have a general responsibility for taking reasonable action to provide for the security of the assets under their control, and for ensuring that the use of these resources is legal, is properly authorised and provides value for money.
- (c) The Head of Corporate Finance is responsible for:
  - maintaining a continuous review of the financial procedure rules and submitting any additions or changes necessary to the Council for approval
  - for reporting, where appropriate, breaches of the financial procedure rules to the Council and/or to the Cabinet Members
  - issuing advice and guidance to underpin the financial procedure rules which Members, employees and others acting on behalf of the Council are required to follow.
- (d) Heads of Service are responsible for ensuring that all staff in their divisions are aware of the existence and content of the authority's financial procedure rules and other internal regulatory documents and that they comply with them.
- (e) Service managers and other staff designated as having responsibility for a budget are referred to as a Budget Manager in this document. Heads of Service have a responsibility to allocate a Budget Manager for all expenditure and income within their service area. Budget Managers are responsible for monitoring and managing expenditure and income within their budgets to ensure that they achieve the best use of resources (both financial and non financial) in order to demonstrate value for money services whilst complying with the authority's financial procedure rules and other internal regulatory documents
- (f) Each section of the attached regulations contain a paragraph to explain why that part of the regulations is important and describes the key controls.

- 1.4. Cabinet decisions can be delegated to a Committee of the Cabinet, an individual Cabinet Member, employee, or a joint Committee.
- 1.5. The Cabinet is responsible for establishing protocols to ensure that individual Cabinet Members consult with a relevant employee before taking a decision within their delegated authority. ##### *Why is this Important?*

## **2.0 MANAGING EXPENDITURE AND INCOME**

### *Why is this Important?*

- 2.1. Effective budget management ensures that resources allocated by Members are used for their intended purposes and that these resources are properly accounted for. Budgetary control is a continual process enabling the authority to review and adjust its budget targets during the financial year and identify issues and opportunities for future years. It also provides a mechanism to apply accountability to those managers responsible for defined elements of the budget.
- 2.2. By regularly identifying and explaining variances against budgetary targets, the Council can identify changes in trends and resource requirements at the earliest opportunity and take action where needed. The Council operates within an annual cash limit, approved in setting the overall budget.
- 2.3. For the purposes of budgetary control by managers, a budget will normally comprise the planned income and expenditure for an identified service area or cost centre.

### *Key Controls*

- 2.4. The key controls for managing and controlling the revenue budget are:
  - a) there is a nominated budget manager for each expenditure heading
  - b) budget managers accept accountability for their budgets and the level of service to be delivered and understand their financial responsibilities and the need to achieve value for money in the use of both financial and non financial resources in delivering their services
  - c) budget managers follow an approved process for all expenditure
  - d) income and expenditure is properly recorded and accounted for
  - e) performance levels/levels of service are monitored in conjunction with the budget and necessary action is taken to align service outputs and budget

### *Responsibilities of Head of Corporate Finance*

- 2.12. To ensure compliance with the Council's scheme of virement.

- 2.17. Advise their Head of Service and service accountant of circumstances that may result in an overall budget overspend immediately they identify the potential overspend.

### **3.0 SCHEME OF VIREMENT AND IN YEAR CHANGES TO SPENDING PLANS**

#### *Why is this Important?*

- 3.1. The Council's scheme of virement and other changes in spending is administered by the Head of Corporate Finance within guidelines set by Council. The rules are designed to give flexibility for heads of services to switch resources between services to maintain the approved level of service. Commitments using these rules should not create additional liabilities for future years as that it is a decision for the Council when setting the budget.

#### *Virement and Other Spending Limits*

- 3.2. The authorisation levels for variations to budgets are set out below:

#### *Heads of Service -*

Virements up to £50,000 (both revenue and capital) in the current financial year between the individual service areas under their control except items specifically identified for the Cabinet, or which would commit the Council to expenditure in future years above the existing budgetary provision in consultation with the Head of Corporate Finance.

## **4.0 ACCOUNTING POLICIES, RECORDS AND RETURNS**

### *Why is this Important?*

- 4.1. Maintaining proper accounting records is one of the ways in which the Council discharges its responsibility for stewardship of public resources. It also helps provide evidence that expenditure has been properly incurred and income due has been collected.

  - f) The authority is required by law to retain prime documents. These include:
    - accounts raised (6 years)
    - copies of receipts (6 years)
    - payroll records (6 years)

For auditing and other purposes, the authority should retain other financial documents for the current plus the last complete financial year.

## **5.0 BUDGETING**

### *Why is this Important?*

- 5.1. The Council is a complex organisation responsible for delivering a wide variety of services. It needs to plan effectively and to develop systems to enable scarce resources to be allocated in accordance with carefully weighed priorities. The budget is the financial expression of the Council's plans and policies.
- 5.2. The budget must be constructed so as to ensure that resource allocation properly reflects the service plans and priorities of the Council. Budgets (spending plans), are needed so that the Council can plan, authorise, monitor and control the way money is allocated and spent. It is illegal for an authority to budget for a deficit. It must also be sustainable.

### *Key Controls*

- 5.3. The key controls for budget preparation are:
  - a) specific approval for all budgets and associated levels of service.
  - b) budget managers are consulted in the preparation of the budgets for which they will be held responsible and accept accountability within delegations set by the Cabinet for their budgets and the level of service to be delivered.
  - c) a monitoring process is in place to review regularly the effectiveness and operation of budget preparation and to ensure that any corrective action is taken.

- 5.12. To identify potential savings for their budget areas.
- 5.13. To prepare a business case to support bids for increased levels of spending within their budget areas.

## **6.0 RISK MANAGEMENT**

### *Why is this Important?*

- 6.1. All organisations, whether they are in the private or public sectors, face risks to people, property and continued operations. Risk is the chance of this going wrong. It is the chance or possibility of loss, damage or injury or failure to achieve objectives caused by an unwanted or uncertain action or event. Risk management is the planned and systematic approach to the identification, evaluation and control of risk.
- 6.2. The purpose of risk management is not to avoid all risks. It is take consider the likelihood of risks taking place, the impact if they do, the options for reducing that risk

and the costs of doing so, and then making measured decisions as to what action, if any to take.

- 6.3. Insurance has been a traditional means of protecting against loss but this cannot be seen as the complete answer. By reducing, or even preventing, the incidence of losses (whether they result from crime or accident) the Council will benefit from reduced costs of providing insurance cover and will also avoid the disruption and wasted time caused by losses and insurance claims.

#### *Key Controls*

- 6.4. The key controls for risk management are:
- a) procedures are in place to identify, assess, prevent or contain material known risks, and these procedures are operating effectively throughout the organisation
  - b) acceptable levels of risk are determined and insured against where appropriate
  - c) managers know that they are responsible for managing relevant risks and are provided with relevant information on risk management initiatives
  - d) managers are able to articulate the decisions they have made regarding risk management and the basis for those decisions
  - e) provision is made for losses that might result from the risks that remain
  - f) procedures are in place to investigate claims within required timescales
  - g) a monitoring process is in place to review regularly the effectiveness of risk reduction strategies and the operation of these controls. The risk management process should be conducted on a continuing basis

- 6.12. To take responsibility for risk management having regard to advice from the Head of Corporate Finance and other specialist officers (e.g. Crime Prevention, Fire Prevention, Health and Safety).
- 6.13. To ensure that there are regular reviews of risk within their departments.

## **7.0 AUDIT REQUIREMENTS - Internal Audit**

### *Why is this Important?*

- 7.1. The requirement for an internal audit function for local authorities is implied by Section 151 of the Local Government Act 1972, which requires that authorities “make arrangements for the proper administration of their financial affairs”. The Accounts and Audit Regulations 2011 regulation 6, more specifically requires that a “relevant body must undertake an adequate and effective internal audit of its accounting records and of its system of internal control”.
- 7.2. Accordingly internal audit is an independent and objective appraisal function established by the Council for reviewing the authority’s system of internal control. It examines, evaluates and reports on the adequacy of internal control as a contribution to the proper, economic, efficient and effective use of resources. Thereby it provides assurance to Members, senior management and the Head of Corporate Finance that the controls in place are proportionate to the risks in the Council’s activities.

- 9.2. The Council's expectation of propriety and accountability is that Members and staff at all levels will lead by example in ensuring adherence to legal requirements, rules, procedures and practices.
- 9.3. The Council also expects that individuals and organisations (e.g. suppliers, contractors, service providers) that it comes into contact with, will act towards the Council with integrity and without thought or actions involving fraud, corruption or bribery.

#### *Key Controls*

- 9.4. The key controls regarding the prevention of financial irregularities are that:

## **10.0 ASSETS**

### **Security**

#### *Why is this Important?*

- 10.1. The Council holds assets in the form of property, vehicles, equipment and other items worth many millions of pounds. It is important that assets should be safeguarded and used efficiently in the delivery of services, and that there should be arrangements for the security of both physical assets and information required for service operations.

#### *Key Controls*

- 10.2. The key controls for the security of resources such as land, buildings, fixed plant machinery, equipment, software and information are:
  - a) resources are used only for the purposes of the Council and properly accounted for

## **16.0 PARTNERSHIPS**

### *Why is this Important?*

16.1. Local authorities are working in partnership with others - public agencies, private companies, community groups and voluntary organisations. Local authorities still deliver some services, but their distinctive leadership role is to bring together the contributions of the various stakeholders. They therefore need to deliver a shared vision of services based on user wishes.

16.2. Local authorities will mobilise investment, bid for funds, champion the needs of their areas and harness the energies of local people and community organisations. Local authorities will be measured by what, in partnership with others, they achieve.

### *General*

16.3. The main reasons for entering into a partnership are:

- a) the desire to find new ways to share risk

16.4. A partner is defined as either:

Local authorities are increasingly encouraged to provide 'seamless' service delivery through working closely with other agencies and private service providers. Funds from external agencies provide additional resources to enable the Council to deliver services to the local community. However, in some instances although the scope for external funding has increased such funding is

linked to tight specifications and may not be flexible enough to link to the Council's overall plan.

#### *Key Controls*

- 17.2. To ensure that key conditions of funding, and that any statutory requirements are complied with and that the responsibilities of the accountable body are clearly understood.
